

STYLE 18

This Garlock long-fiber flax packing features heavy impregnation - not just superficial coating - with a specially-formulated marine lubricant. It is a relatively dense square braid packing that is easy to install and adjust. Resistant to petroleum, mild acids and alkalis, Style 18 is a favorite for marine service in stern tubes, shaft bulkhead glands, cold water and brine pumps, as well as applicable reciprocating and rotary oil field equipment, cooling tower and lagoon feed applications.

TEMPERATURE	To +220°F(+104°C)
PH RANGE	5 - 9
SHAFT SPEED	To 1000 - 1200 fpm
PRESSURE	To 150 psi (10 Bar) Rotary/Centrifugal
CONSTRUCTION	Square Braid
